Disposable pants - with integral waistband straps to fit incontinent  
adults securely  
C88-143553

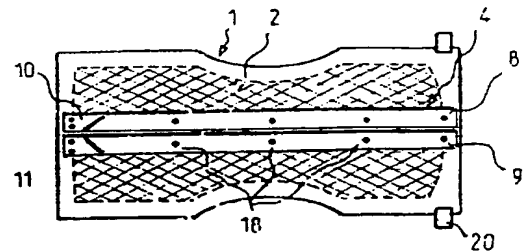

A(12-C3, 12-V3A) D(9-C4) F(4-C1)

Disposable pants for incontinent adults incorporate integral straps (8,9) to secure the pants about the waist of the user. The body (2) of the pants comprises impermeable, absorbent and permeable layers shaped to accommodate the thighs. The straps pref. lie lengthwise prior to use but are designed to fold or otherwise be deployed laterally to encircle the waist and be secured by e.g. fasteners, or patches of fabric fasteners (hooked pile tape) or adhesive (18).

Opt. the straps are anchored to one half of the pants and secure the other end of the pants in addition to their own overlapping ends. The positions of the fasteners or anchorages may be adjustable.

USE

To enable efficient mfr. of a pants designed to fit some of the range of sizes typical of adults. (13pp515PADwgNo3/8).
